### Seat extension

We will launch a textile project where the textiles in the S2, Bambino and the Micro series is upgraded to material from the S3 series.

We want to simplify the usage and the logistics and replace all the different model specific variations of the seat extensions with U3/S3 Short seat extender.

At the same time we update the description for this article. In the table below you can see our recommendation for suitable width of the seat extension for different frame fronts. The seat extensions are rarely ordered separately, they are included in the article number for a complete seat.
